## PROJECTS

---

**TheShuffling**

Aug. 2019 - Nov. 2019

TheShuffling is a Web Service available for users to upload and organize custom card collections created by my friends and me. It features a global chat and a Google login. The web service is created by using NodeJS, Mongo Atlas, JavaScript, bootstrap and hosted using Amazon AWS EC2. I worked on front-end development as well as software testing.
